

## The Puppet Master Index 1946 – 2020

### How the index works

The references are shown thus: 15/9/4\* which means volume 15, issue 9, and page 4. The asterisk indicates that the article is illustrated.

A slight complication is that there are two series. The first series has four volumes (26 issues). For identification these are shown beginning with a forward slash. For example, /2/3/4 indicates volume 2, issue 3, and page 4 of the first series; whereas 2/3/4 relates to a similar location in the current series.

It was impractical to reference every time a person's name appears. Similarly, listings of performances and names of short skits, variety turns etc have been limited to those felt to be particularly significant. The downside of this is that names of many volunteers who helped at Guild events have not, with regret, received any credit here. So, apologies to those left out.

Names in **bold** type indicate that they are authors of all or some of the listed articles under their names, which could also include reviews of their performances and articles written about them.

A few ambiguities in the numbering of early issues can be resolved using the list below by referring to the front cover illustrations.

Please send all queries, comments and suggestions to Ray DaSilva.
